High Productivity

Carriage Print speed - 1.7m/second.
Print speed of 156m²/hr.

Capacity

Safety Curtain System

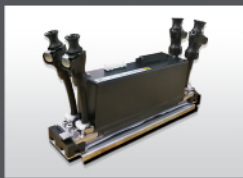

Take-up system configured with infrared safety curtain protects equipment from damage & ensure safe operation.

Automatic Width & Height Adjustment System

Automatically detects the width & height of media, improves productivity & quality.

Print head technology

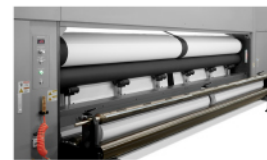

Grey scale Ink jet Technology

Grey scale ink jet technology not only saves on ink cost, but ensures your printed images are more vibrant & appear more realistic.

Machine Features

Single & Double Roll Printing System

Supports single & double roll printing, increasing productivity & turn-around time & labour cost.

Equipped with water-cooling platform and adjustable suction design.

Modern new design, combining Art & Industry.

ENCLOSED COVER (Optional)

High quality acrylic front panels, protecting prints from dust & extreme light. More durable & safer.

Strong industrial frame structure. More stable & stronger. Stunning individual computer console.

Wide Colour Gamut & Vibrant Colours.

Supports optional colour mode, according to different applications.

Advanced Kyocera Printhead Technology

Equipped with 2nd generation Kyocera head control board to improve productivity.

Advanced UV inkjet technology in variable drop size & industrial grade grayscale, achieves fine print quality.

Mesh Printing Technology (Optional)

Specially developed mesh kit, for printing on mesh pvc.

ENCLOSED COVER (Optional).
